FICKERT GRAFT PROBE GETS LOCAL

MARTINEZ, Nov. 26.—Frank Nixon, president of the Martinez Local Oil and Gas Workers' Union, named in the report of J. B. Densmore as having "paid several surreptitious visits" to District Attorney Charles M. Fickert of San Francisco with M. G. Word a member of the union, tendered his resignation as president this afternoon. He accompanied his resignation with an announcement of his withdrawal from the union.

Nixon's resignation came as an aftermath to a stormy session of the union last night at which he was sustained by a single vote and Word was suspended, following discussion of the charges made against the two union members of the Densmore report.

Charges of fraud against the union in its action against him are made by Nixon in his letter of resignation.

Here is what Densmore says in his report after mentioning the visit which Nixon and Word paid to Fickert in his office in San Francisco: "Fickert's alias in dealing with these men and the general air of mystery which clothed their several meetings, considered in connection with the character of the three men, makes it certain that their business was part and parcel of some further frameup, the full import of which has not yet been disclosed."

UNION THANKSGIVING SERVICES IN CHURCHES TOMMOROW

A call has been issued by the Pastors' Union of Richmond for a Thanksgiving service to be held in Wesley Methodist Episcopal church on the corner of Ninth and Nevins. Surely if ever a people in the world had any reason for thanksgiving, the people of the United States have. Not simply because we have been victorious in battle—not simply because we now have peace—but because right and justice will now have an opportunity to spread over the whole earth. Because, before we entered into this great struggle we gained the victory over ourselves. We are now facing a new era. Let us turn our hearts toward God who alone is able to work out through us a real brotherhood of the earth. Again, while many of our people were taken by the plague, we should be devoutly thankful that no more homes were obliged to suffer. Let this service be one for the whole people, not simply for those who are identified with some one of the churches of our city. Let everybody feel that he has a right to a share in this meeting. The hour of the service is 10:30 a. m. There will be an offering of thanks given, this to be sent to the suffering Armenians and Syrians. Let us make this a large expression of gratitude to God. While we have suffered, yet we have not approached the suffering of our neighbors across the water.

The following program will be rendered:

1. Hymn, "America"
2. Invocation.
3. Responsive Reading, led by Rev. A. R. Sanborn.
4. Hymn.
5. Prayer by Rev. Theo. A. Boyer.
6. Special Music by the choir.
7. Scripture reading by Rev. J. G. Gillette.
8. Offering.
9. Reading of Proclamation by Rev. Carl Bassett.
10. Thanksgiving Message by Rev. H. K. Sanborn.
11. Special Music by the choir.
12. Exhortation.
13. Benediction.

BOLSHEVIKISM AND OTHER ISMS

Educated, enlightened and intelligent people the world over greatly deplore the spread of anarchy and Bolshevism in Europe and its occasional cropping out here and there among the ignorant classes in this country.

Anarchy and Bolshevism fattens and thrives upon ignorance. Ordinary intelligence will have nothing to do with it. It was started in Russia, where ninety percent of the people cannot read or write and never yet heard who started the war or what it was started for. They have since spread the propaganda for and wide wherever ignorance prevails. Anarchy has prevailed in Mexico for eight or ten years, ever since Diaz died, and there is not a more ignorant people on the face of the earth than the peon Mexicans.

Origin of Bolshevism

As soon as ignorance hears of what traitorous and hireling so-called "leaders" term liberty, it immediately associates it with license, anarchy, defiance of all law and order, the red flag, plunder and pillage, and out of it sprouts and flourishes Bolshevism.

The Socialists are much to blame for this, for in spreading their doctrines and theories, which in the main are not bad or at all vicious, they have failed to take into account human nature or the fact that as soon as ignorance got a hold of those doctrines and iridescent dreams it would at once construe it to mean the taking away of everything from those who have and distributing it among those who have not, no matter how shiftless the latter might be, and that the results would justify the means—murder, plundering, terrorism, Bolshevism.

The poor are and always have been oppressed by the rich. That is true, and there never was a time in history when it was not true. But anarchy, bloodshed, riot and Bolshevism are not the remedies. Two wrongs do not make a right. There are just and lawful means that can be employed, and they are being employed more and more every year.

There is little danger that anarchy will ever get much of a foothold in America, for the American people will not stand for any such raw and rough stuff. That is why they are now stamping out the I. W. W. organization with iron heel.

Another reason why Bolshevism will never flourish in the United States is because of our compulsory system of education. The ignorant foreigner who comes here in the steerage may be tainted with it, but his American born children, educated in our schools know that sort of thing for what it is and shun it as they would plague or pestilence.

As education and intelligence takes the place of ignorance all such rotten rubbish as Bolshevism slinks away into the garbage can of civilization even as the rat's tail disappears through a hole in the kitchen floor.

The main difference in Roosevelt's bandwagon and any other bandwagon is in its length of tongue.

QUIT HAVING IT CHARGED

One of the most pernicious habits extant is that of running accounts at the stores and having things charged instead of paying cash for them when purchased. It is also almost entirely unnecessary, and is merely a habit, and a habit that is not only foolish but very expensive.

There is always a certain percentage of dead beats who skip out and beat their bills, and the honest man has to pay those bills by an added cost of the goods he buys and pays for. If bills were not run at the stores and living expenses were on a cash basis, this would not be.

Also, the man who has it charged pays more for the goods than does the man who pays as he goes along, and it is proper that he should, for bookkeepers have to be hired and paid, billheads have to be printed and paid for and a percentage must be added to the bill because of those who never pay. Also, when in the habit of having it charged nine people out of ten buy more recklessly than if they handed out the coin each time. It is bad business and ought to be stopped. Everybody is making good wages now, and there is no reason why they should not pay for what they get when they get it.

When a man goes into a grocery or meat market and runs a bill, in effect he says to the storekeeper: "Mr. Merchant, I and my family are hungry, but we are too poor and hard up to buy anything to eat, so we want you to buy it for us, and keep us and feed us till we get some money, next month."

Seems to us we'd go pretty hungry before we would go to a shopkeeper and put up a plea of poverty like that, in effect or otherwise, especially if we were making good wages. That sort of thing ought to be very mortifying to a man with the American spirit in him.

The trouble is, it is a habit. Break it. Cut it out.

If sickness, death or other misfortune make such a thing necessary, that is different, but in a vast majority of cases there is no excuse.

Start in the new year right. Pay cash. Demand right prices and good service, and you will get both.

THINKOGRAPHS

There was a man in our town
And he was wondrous wise,
He never lifted up the crust
To look in wifey's pies.

The easier people make money the easier they want to.

If we are here to help others, what are the others here for.

We'd sooner ride in a jitney than have a six-cylinder mortgage.

A fellow with seven-year itch has what might be termed a steady job.

The cable says: "Von Mackensen may defy the new government." Von Mackensen may also be hanged.

Complete returns from Minnesota and Ohio show that these states have gone dry by satisfactory majorities, and that their legislatures may be counted on to ratify the federal prohibition amendment.

Lest we forget, the boys who were ready to go overseas and wanted to go, are entitled to just as much credit as those whom fortune delegated as messengers to carry the blessings of liberty to the benighted German people. It is not their fault they were detained on this side, therefore, when the laurels are prepared for bestowal upon the nation's heroes, let's not forget the boys who didn't get to go and take part in the greatest show the world has ever staged.

HOUSING PROBLEM STILL VERY ACUTE

The following from Oakland applies equally forcibly to the same conditions, which prevail in Richmond. Something must be done here to solve this problem, and it is high time our people were recognizing the seriousness of it, and the urgency for concerted action. The capitalist, land owner and builder must get together and the quicker the better.

The Oakland industrial housing situation, recently revealed as being in an acute stage by surveys made on request of the Department of Labor, has not been relieved by industrial let-ups since the signing of the armistice, according to reports made by the Oakland Homes Registration Committee. An investigation was made by the committee and a meeting of representatives of all Oakland organizations has been called to develop plans to relieve the situation.

With present plans being carried out by all shipyards and expansion work being continued, the present shortage of homes soon will force Oakland to a point where public action will have to be taken, in the opinion of the committee.

According to Joseph R. Knowland, chairman, action will bring about co-operation between moneyed interests, builders and property owners with a solution of the problem.

POLLUTED POLITICIANS DISCLOSED BY DENSMORE

New and sensational disclosures by dictagraph revealing the close affiliation between "Maury" Raphael, Tax Collector Eddie Bryant's "Man Friday," and Marshall Woodworth, former United States district attorney, with Pete McDonough, the "Centipede" were made today while the county grand jury was awaiting the return of John B. Densmore to launch a searching and far reaching investigation into Mr. Densmore's charges of graft and corruption on District Attorney Charles M. Pickert and other public officials.

The record of the dictagraph as further revealed today, shows the giant octopus of graft and political pull extending its slimy tentacles from its lair in McDonough Brothers' saloon at Clay and Kearney Streets to the Hall of Justice and to the City Hall.

It discloses city officials feeding this monster, holding opening their doors to its tentacles and using the telephone to transact their business of "pull" with McDonough the "centipede" in whose ball bond headquarters dwells the octopus fed by special privilege, bribes and corrupt political favor.

25,000 WORKERS EFFECTED BY STRIKE

Work at the Alameda plant of the Bethlehem Shipbuilding Corporation is practically at a standstill today by the failure of approximately 2000 boilermakers and their helpers to go on the job yesterday.

The walkout follows a meeting of the local Boilermakers' and Iron Shipbuilders' Union held yesterday when by referendum vote it was decided to lay off work at the plant until a satisfactory arrangement is made with the management regarding the forty-four-hour week and payment of wages on company time. The meeting yesterday was attended by approximately 8500 of the 4500 members of the union.

Approximately 10,000 members of Eastbay organized labor, representing the Boilermakers', Shipyard Laborers' and Machinists' Unions, yesterday voted to walk out on December 2 in sympathy with the free-or-retry Mooney movement. Their action was taken in support of a resolution to that effect passed by the Central Labor Council of Alameda County at its meeting, and follows similar action taken last week by various other Eastbay unions.

In addition to an affirmative vote on the Mooney resolution the Machinists' Union also voted to strike on December 9 unless the wage schedule submitted by the Pacific Coast District Metal Trades Council to the Macy Board at Washington is granted prior to that date. Should the strike be ordered it would affect every shipyard in the Eastbay district and would ultimately throw 25,000 shipyard craftsmen out of employment.

The American Federation of Labor is not in sympathy with the strikes threatened in protest against the pending execution of Thomas J. Mooney.

Officers of the federation are doing all in their power to effect executive clemency for Mooney because they believe there is a reasonable doubt of his guilt.

They are opposed to the use of the strike weapon because they believe that such tactics tend more to injure than to help Mooney's chances for a new trial.

BOLSHEVIK TREACHERY FOSTERED BY HUNS

For the last several months the whole of Russia has been in a state of perpetual revolt, but it is the revolt of desperate, disorganized and disarmed masses against the mightiest and most perfidious power in the world—against Germany.

Germany, not by force of arms, but through Bolshevik treachery, means to stay in Russia. Having ascertained that she cannot retain the country either by arms or the establishment of friendly relations, she uses her Bolshevik tools in a policy of unprecedented destruction.

The policy consists in destroying all the living forces of Russia, industrial as well as intellectual. By raining Russia's industries and exterminating her educated classes her experts and organizers Germany hopes to reap all the advantages of being her next-door neighbor after the war.

Her calculation is that Russia, deprived perhaps for a generation of her own industries and experts and separated from the other industrial countries by thousands of miles, will become Germany's undisputed prey and market. The Bolsheviks, who are destitute of any sort of constructive ideas are tools admirably adapted for the execution of Germany's destructive designs and her schemes are laid before them by German agents who work in their ranks.

THE SPRUCE SOLDIERS ARE COMING HOME

Spruce Squadron, Wash.

Nov. 24, 1918

My Dear Mr. Hulanski:—Just a few lines to let you know, that I am now on my way back to Vancouver, Washington, and then I expect we will get our discharge, very quick. We will be mighty glad to get home and enjoy some more good times in Dear Old Richmond.

I just got promoted to first class private, so you can see, I am bringing home the bacon, while the boys over there, are coming home with the "Rhine." The people up here in this northwest country have all treated us boys very good. When I come in I will have lots to tell you. I am satisfied I did my bit and I have no kick coming. I will send you a telegram when I am coming home, so if you can get the band boys out to meet me I will make one of my famous speeches in the Lincoln Auditorium the night I arrive in town.

We feel just as proud as the boys "over there." Our camps were worse than the trenches in France. Now you may think this sounds like brag, so all you can do is find out from the Y. M. C. A.—they know, we had hard battles to fight, and they back us Spruces up everytime.

Our chaplain is an ex-Richmond minister, Rev. Hand. Glad you recovered from the "flu."

When I get home, me for the News' office for a year's subscription in advance, and I will bring my gang along, too. You have done lots of boosting for us and we appreciate it very much, so when you want your room decorated in Ribbins' egg blue and trimmed with shell pink, I will be there to do it. Well, I am out of news, so will close for the choo-choo leaves soon. Vancouver bound.

As ever,

Oscar S. Lee.

Correct Lubrication for the Valve-in-Head Type Motor

The Valve-in-head-type engine illustrated here, like all internal combustion engines, requires an oil that holds its lubricating qualities at cylinder heat, burns clean in the combustion chambers and goes out with exhaust. Zerolene fills these requirements perfectly, because it is correctly refined from selected California asphalt-base crude.

ZEROLENE The Standard Oil for Motor Cars

It Keeps the Engine Young!

Experts agree in recommending ZEROLENE because it keeps the engine young—full-powered, smooth-running, and economical in fuel and oil consumption.

The majority of motorists are now using ZEROLENE, because they have learned by experience that there is no better oil to be had.

Correctly refined from selected California asphalt-base crude, ZEROLENE gives perfect lubrication with less wear and less carbon deposit. Less wear because ZEROLENE keeps its lubricating body at cylinder heat. Less carbon because, being made from asphalt-base crude, it burns clean and goes out with exhaust.

ZEROLENE is the correct oil for all types of automobile engines. It is the correct oil for your automobile. Get our lubrication chart showing the correct consistency for your car.

ART STUDENTS WILL EXHIBIT EFFORTS

The Columbia art class will hold its initial exhibit at the show room of Eberhart's Stationery store, beginning November 30 and continue a week.

The work exhibited will consist of pastel and oil paintings, reproduced from famous masterpieces, and includes everything from portraiture to still life. There will be 135 pictures hung, which is the result of several months efforts on the part of the students.

There will be several well known critics present, among which are Mrs. Renoud of Oakland, a well known painter; Mr. Katz of San Francisco and Mr. Cameron of Oakland, and who will delve into the merits of the pictures.

The work of the following students will be exhibited, Mrs. Minnie Jullio, Mrs. Belle Sylla, Mrs. Nellie Richter, Mrs. Ida Lackey, Miss Catherine Forbes, Miss Retha Dreyer, and Miss Stella Shoemaker, San Francisco, Elmer Wright and Clinton Arnold.

The exhibit will be open to the public, who are urged to take an interest in the efforts of these young artists, and so encourage them to further zeal.

Without doubt it will be worth any ones time to view the handiwork of the members of the art colony that is springing up in Richmond in spite of the fact that it is a manufacturing town.
